Behind Every Great Visit

**Smart Solutions
for the Arts**

Enhance Experiences and Improve Efficiency

Who We Are: Jixaw Technologies is a team of people like you. We've been in your shoes and we understand the challenges you face. From limited resources to communication constraints to tech barriers.

What We Do: Blend technical knowledge, creativity and an understanding of the arts sector, to make technology work for you, not against you.

Solutions Built for Your Teams

Jixaw brings smart, integrated tools to reduce admin load, streamline systems & serve visitors better.

What we offer:

Custom websites,
applications &
admin tools

System integrations
(Tessitura, Spektrix,
Blackbaud & more)

Online booking
& registration

Data, reporting
& technology
management

Giving &
membership tools

Strategic Guidance
& staffing support

"The Jixaw team is incredibly responsive, collaborative, and solution-oriented, always helping us find the right path forward within budget and on time. We truly value their partnership!"

Kristina Celik

Senior Vice President, Marketing
Arizona Science Center

Strategy & Systems Support

Smarter Systems. Stronger Teams.

Jixaw brings IT, marketing, development, and finance to the same table, making sure ideas are practical, systems are sound, and decisions work across your organization.

What This Looks Like

- Marketing plans supported by the right infrastructure
- IT solutions that enhance ticketing, fundraising and engagement
- Finance requirements built in from the start

Staff Augmentation, Consulting & Reporting

Targeted Support. Trusted Guidance.

When teams need extra capacity or specialized expertise, Jixaw steps in with people who understand your systems and workflows.

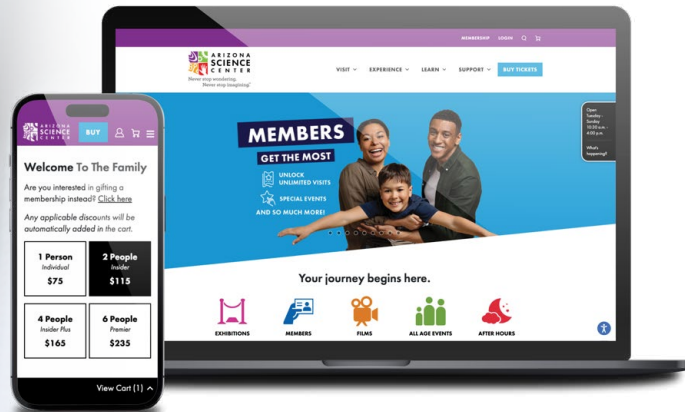

What This Looks Like

- Staffing coverage for turnover, transitions, and peak periods
- Project management and hands-on technical support
- Consulting and strategic guidance informed by 20+ years of industry experience
- Custom reports and analytics that guide planning and decision-making

Web Platforms Built for You

**No more workarounds. Flexible solutions for your team,
your workflows & your patrons.**

- Custom websites, dedicated pages & branded tools
- Mobile-friendly registration, calendar, & donation tools
- On-site interfaces for box office & front-of-house
- Admin dashboards for easy updates & reporting
- Data management & hosting services
- Integration with Tessitura, TNEW, Raiser's Edge & more
- Accessibility & compliance standards built-in

Let Groups Book Themselves

Self-service online registration for camps, classes and tours.

Why it works:

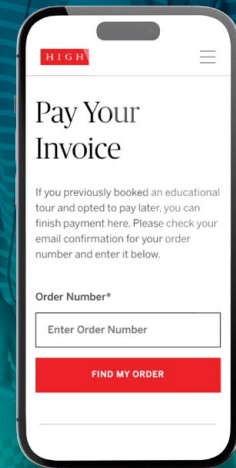

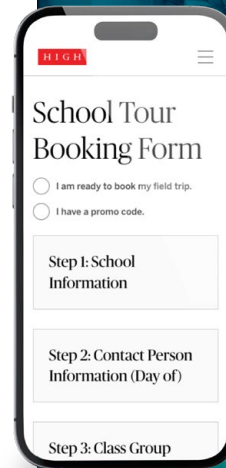

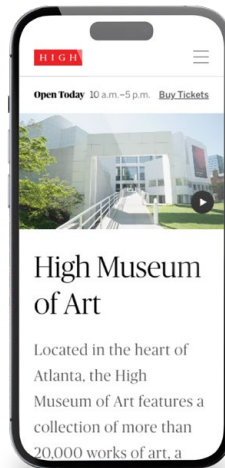

- No more emails, phone calls or manual data entry
- Real-time Tessitura sync - capacity, payments, participant information
- Branded, mobile-friendly interface

Features:

- Online registration with pay now/pay later
- Optional add-ons & custom forms
- Automated email confirmations & reminders
- Calendar filters (program, date, grade level)

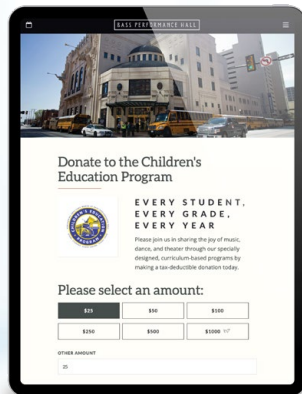

"It's amazing to think that they took our complicated system, developed something that had never been done, and made it work. It has become a game changer for our group's department and has made our booking process a lot more efficient and user friendly!"

Mami Fondu
Coordinator, School Tours
High Museum of Art

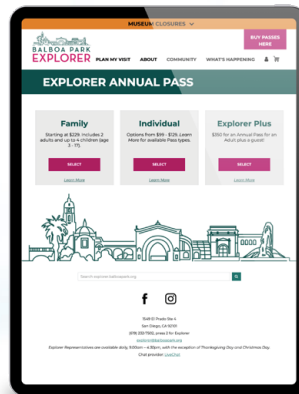

Frictionless Giving & Membership Sales

Smart, self-service tools that make it easy to give, join, and support — without extra admin.

Express Donation

One-screen donation experience. No logins, no duplicate accounts.

Membership Management

Easy sign-ups, renewals & perks. Integrated with Tessitura.

One-Page Events & Galas

Manage RSVPs, tickets & table sales. Guest tracking built in.

"Jixaw has been a tremendous partner to the National Veterans Memorial and Museum during a time of transition. Their expertise and insights are spot on, and their knowledge of Tessitura enables them to advise us on the best ways to leverage the tool and reach our intended audiences with compelling, action-oriented messages."

Mark Cooper

*Director, Communications and External Relations
National Veterans Memorial and Museum*

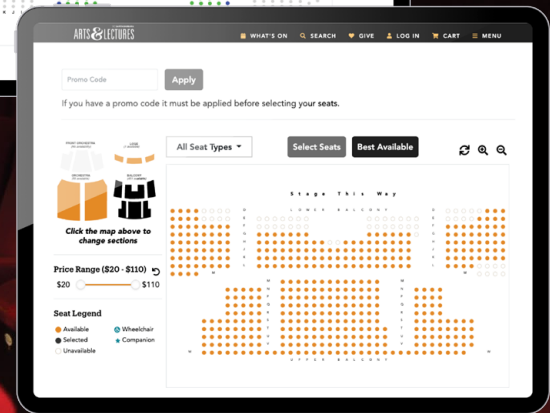

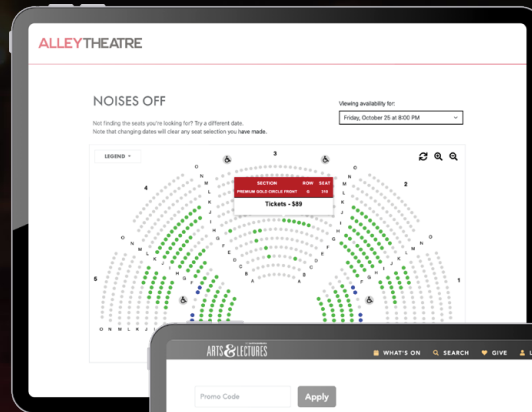

Interactive Seat Maps

Premium seat selection.

Beautiful, explorable venues with live pricing, availability and custom seat information.

Features:

- Authentic representation of your unique venue
- User-friendly and intuitive on any device
- 360 view from seat
- Fully branded to your organization's look and feel
- Scales reliably during high-traffic on-sales
- Seamlessly integrated with your existing ticketing system

Jixaw Pay by Link

Fast, secure payments made simple.

1. Create an order
2. Send a link by email or SMS
3. Patron pays online
4. Done.

Features:

- No phone calls, no chasing invoices
- Easy and mobile-friendly
- Built-in fraud protection with expiring links
- Automatic confirmation and clean records

360° Viewer

Invite your patrons to explore your unique venue—like the Rady Shell at the San Diego Symphony—with the 360° Viewer. This interactive tool lets them view seating options from every angle, helping them choose seats with confidence and feel connected to your events before they arrive.

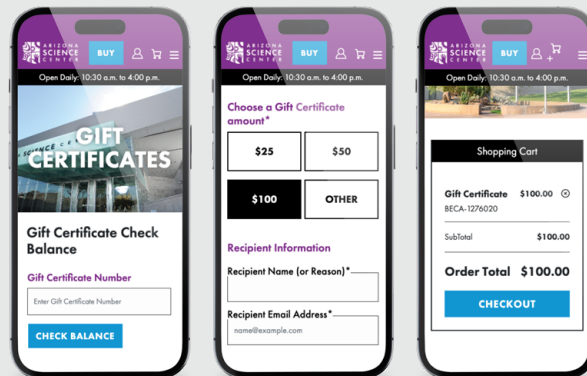

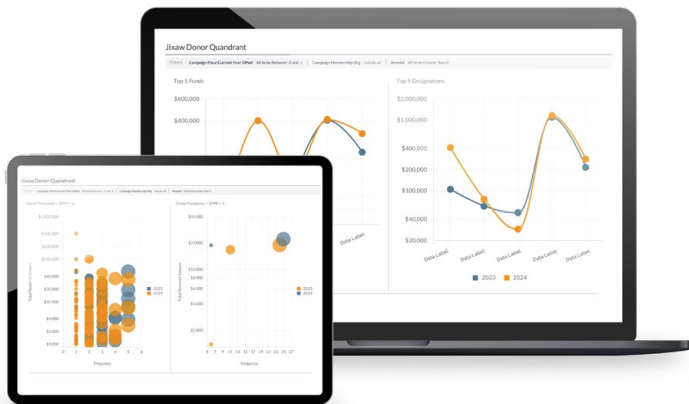

Commemorative Tickets

Commemorative tickets are limited-edition keepsakes created for special events. Individually numbered and produced in small quantities, they give patrons something lasting to take home.

Online Gift Certificates

Offer a meaningful gift option with Online Gift Certificates. Patrons can select amounts, personalize their gift, and send it by email—perfect for new or existing supporters. Organizations like the Arizona Science Center use this tool to promote events, increase revenue, and reach more patrons.

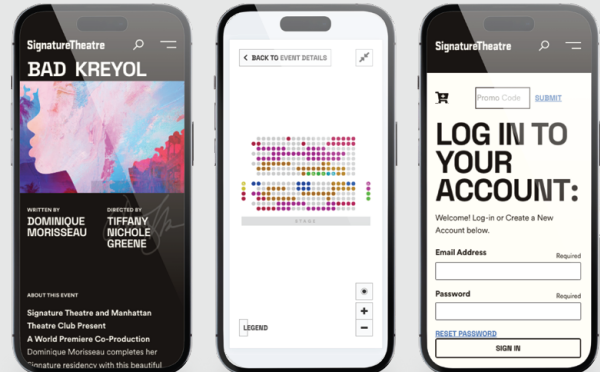

Custom Reports & Analytics

Unlock your data's full potential. Custom dashboards and reports track ticket sales, donor trends, audience behaviour, and more. Spot opportunities, understand what's working, and report results to stakeholders with confidence. Transform your data into clear, actionable insights.

TNEW Integration

Seamlessly integrate your site with TNEW, including added functionality with a custom TNEW Template. We've partnered with diverse organizations, each with unique needs, challenges, and goals, yet our responsive, branded designs consistently streamline management and reduce cart abandonment. Easily update events, calendars, and seating maps—no heavy tech work required.

SUCCESS STORIES

Transforming Operations and Outreach

Discover how organizations like yours have revolutionized their operations with our solutions.

These case studies showcase improvements in efficiency, sales, and data-driven strategies that have real impact.

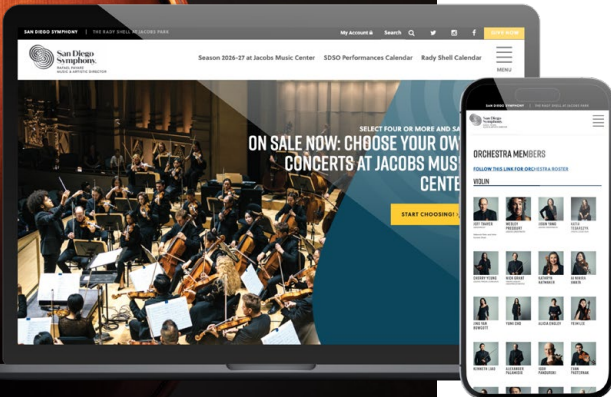

San Diego Symphony

Challenge: Their existing platform was insecure, relied on outdated technology, and made day-to-day updates awkward and expensive. A full rebuild was the goal, but the timeline needed to flex around an impending new season announcement.

Solution:

- **Stabilization First:** Jixaw created a secure, isolated environment to host the existing site, keeping everything running smoothly while making a longer-term plan.
- **Full Rebuild on a Modern CMS:** A flexible Umbraco CMS was created to give the team full control over their content.
- **Tessitura and TNEW Integration:** A seamless 2-way connection between the website and the TNEW platform.
- **360 Viewer:** An immersive, interactive seat map for the Rady Shell, letting patrons explore their view and the venue before buying.

Results: Launched in time for the 25/26 season, San Diego Symphony now has a secure, fully integrated platform their team and patrons love. The partnership has since grown to include interactive lobby displays and dual-domain functionality, reflecting an ongoing relationship built on trust.

Public Theater

Challenge: The Public Theater faced challenges due to insufficient resources and technical expertise, necessitating a technology upgrade to improve brand alignment, user experience, and internal efficiency.

Solution:

- **Tessitura Enhancement:** Upgraded to optimize marketing and streamline IT operations.
- **Website Redesign and Rebuild:** An intuitive, contemporary platform promoting ticket sales and donations.
- **Business Consulting:** Strategic and operational guidance promoting collaboration with the internal departments.

Results: Tessitura is effectively serving their needs, internal procedures have been improved, and a vibrant, user-friendly website has increased engagement and sales. Our ongoing assistance guarantees the Public Theater's growth and smooth operation.

Photo by Joseph Moran

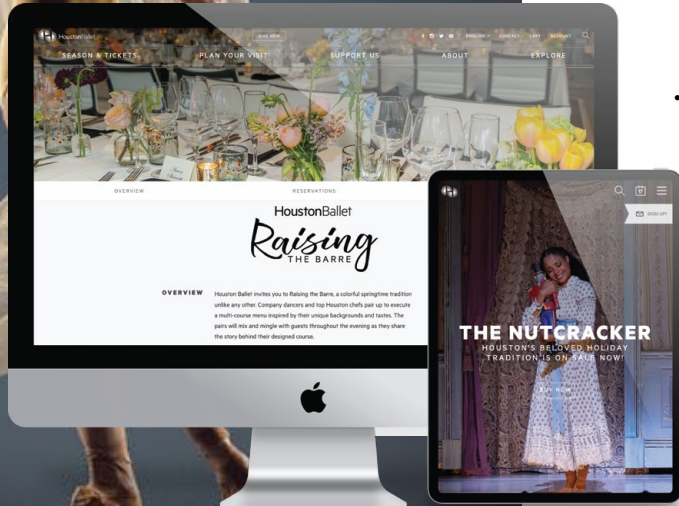

Houston Ballet

Challenge: Houston Ballet's existing website made updates and maintenance time-consuming, limiting flexibility and reducing their ability to expand online fundraising efforts.

Solution:

- **Migration to Umbraco CMS:** Staff can easily manage content, events, and promotions without technical support.
- **Tessitura Enhancement:** Real-time ticket availability, dynamic pricing, and flexible add-ons, including online donations.
- **Streamlined Purchase & Online Giving Paths:** Fewer clicks, dynamic pricing, easy add-ons, and improved donation flows.

Results: A modern, flexible, easy-to-manage website that supports staff workflows, and strengthens ticketing and fundraising performance.

Arts & Lectures

UC Santa Barbara

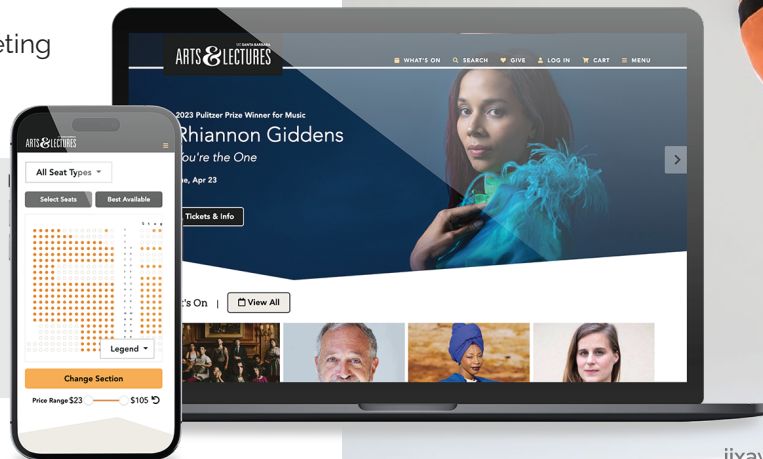

photo by Brigid Pierce

Challenge: Their website was cumbersome to navigate and required constant maintenance due to the array of events. It failed to adequately showcase their events, limiting sales and attendance.

Solution:

- **Improved Web Development and Event Management:** A custom Umbraco CMS solution that makes ticketing and event page updates simple.
- **Intuitive UX/UI Design:** A stunning design for seamless browsing and purchasing experiences.
- **Tessitura and UCSB Student ID System Integration:** Streamlined ticketing and discounts online.

Results: A media-rich website with user-friendly navigation, seamless ticket purchasing options, and significantly decreased backend maintenance requirements.
