About Us

TicketNetwork is a leading provider of ticket technology solutions that power the global live events marketplace. Our suite of products includes point-of-sale solutions, open distribution networks, white-label sites, and integrated tools that connect rights-holders, venues, and fans. With over two decades of experience and billions in ticket sales processed, we help partners simplify event management, expand their audience reach, and maximize revenue through innovative, scalable, and data-driven technology.

Our culture is at the heart of who we are. Headquartered on a vibrant campus in South Windsor, Connecticut, we believe in creating an environment where people can thrive personally and professionally. Team members enjoy complimentary breakfast and lunch daily in our on-site cafeteria, access to an employee gym, and the unique experience of working alongside a small farm that cares for rescued animals.

We're also committed to sustainability, with free employee electric car charging stations, added trees that offset our carbon footprint, and a rooftop of solar panels that generate a majority of our electricity. Our efforts reflect our focus on innovation, not just in technology, but in how we operate as a company.
